pjcevans.github.io/portfolio/

3 Field Terrace, Rodborough, Stroud, GL5 3SP, UK

Core Skills:

Experience with full stack Javascript, including ES6

Experience using modern libraries such as React and Redux

Experience with working on the Linux command line

Working knowledge of SQL and NoSQL

Knowledge of design, from HTML, SCSS, and Bootstrap to data visualisation and SVG

Knowledge of various software development practices, build processes, and version control

Experience:

Data Curator / Data Manager, OpenCorporates, London, UK

Contract, full-time: 1st January 2015 - 29th March 2016

Freelance, part-time: 17th February 2014 - 31st December 2014

Instituted and streamlined Quality Assurance processes and collaborated with development and sales teams to produce, Quality Control, and ship viable data products.

Worked extensively with JSON and SQL data to produce reports and QA datasets.

Participated with developers in events such as Meetups and technology meetings.

Maintained ongoing relationships with clients and answered questions about data deliveries.

Represented QA/QC and Acquisitions at team meetings, communicated progress and timescales and made suggestions about where further QA could be effective.

Wrote support documentation and provided training for the management of data products.

Software Tester, Reveal, remote, UK

Freelance, part-time: 30th March 2016 - Present, 28th November 2013 - 31st December 2014

Optimised the team's Jira workflow to ensure that all issues are captured and resolved.

Provided manual and exploratory testing on each release of Reveal and intervening sprints.

Isolated bugs and clearly communicated procedures for bug reproduction.

Utilised virtual machines to test across operating systems and browsers.

Education

BA (Hons) Psychology, University of Sussex

July 2006

Additional Education

Codewars - <https://www.codewars.com/users/pjcevans>

April 2016 - Present

Designing and undertaking Exercises - Javascript

FreeCodeCamp - <https://www.freecodecamp.org/pjcevans>

August 2016 - November 2016

Coursework - HTML, CSS, Javascript, Git

Codecademy

June 2013 - August 2016

Coursework - Python, Ruby, Javascript, jQuery, APIs, Youtube API

Community

Ran regular Hackathons as part of crowdsourcing open data acquisition

Part of the Founders and Coders bootcamp Meetup community

Started a Programming Meetup in Stroud

Helping to run the Cheltenham JS Meetup
